SUMMARY

Senior frontend developer with over 10 years of experience building scalable, high-performance web applications. Specialized in Angular and React, with strong proficiency in TypeScript, HTML, CSS (Flexbox, Grid), and SCSS. Experienced in collaborating with cross-functional teams including designers, backend developers, QA, and DevOps. Skilled in Agile and Scrum methodologies, leading sprint planning, managing tasks with Jira, conducting code reviews, and applying performance optimization techniques such as lazy loading and Lighthouse improvements.

SKILLS

Frontend: Angular, AngularJS, React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/Sass, Tailwind CSS, Bootstrap, Angular Material

Testing: Karma, Jasmine, Cypress, unit testing, integration testing, end-to-end testing

Performance and accessibility: Lighthouse audits, Core Web Vitals (LCP, CLS, INP), lazy loading, code splitting, image optimization, responsive and cross-browser development, WCAG, semantic HTML, keyboard navigation

APIs and data: REST, GraphQL, token-based authentication, role-based access control, Firebase, MySQL **Tools and platforms:** Git, GitHub, Jenkins, Jira, Trello, Monday, Shopify, VTEX, Postman, Figma, Google Tag Manager

Ways of working: Agile, Scrum, Kanban, sprint planning, backlog grooming, code review, mentoring, AI-assisted development

PROFESSIONAL EXPERIENCE

Frontend Developer - CodersLab May 2025 - Aug 2026
Santiago, Chile (Remote)

- Coordinated a team spread across four countries—Colombia, Chile, Ecuador, and Venezuela—with the client in the United States.
- Planned the six-month roadmap with the team, set priorities, and distributed the work.
- Gathered requirements directly with the client and estimated timelines and tasks in sprint planning, managing the backlog in Jira and reserving room for testing and adjustments.
- Developed modular and reusable UI components with React, TypeScript, and SCSS, delivered with unit tests and supported by AI tools.
- Integrated REST APIs for dynamic data rendering and authentication flows.
- Reviewed pull requests and supported the developers joining the team.
- Collaborated daily with the QA, backend, design, and product teams.

Tools and technologies: React, TypeScript, SCSS, Tailwind CSS, HTML, CSS, Next.js, Git, Jira, Agile, REST APIs

Frontend Developer - Gradiweb Nov 2024 - Mar 2025
Bogotá, Colombia

- Improved performance of Shopify stores using lazy loading, image optimization, and Lighthouse-based fixes. - Customized themes using Liquid, HTML, and CSS, aligning with client branding and UX requirements. - Connected and consumed GraphQL and REST APIs for product and order management. - Troubleshot and fixed frontend issues across various Shopify storefronts.
- Used Git for version control and Monday for task tracking.

Tools and technologies: HTML, CSS, JavaScript, Shopify, Liquid, Bootstrap, GraphQL, REST APIs, Monday, Git

Frontend Developer (Freelance) - Arbelos Interactive Sep 2020 - Oct 2024
Ontario, Canada (Remote) - contract work, by project

- Developed a video streaming platform with React and Next.js, implementing multi-profile login, watch

history, and recommendation features.
- Built and maintained admin dashboards using Angular, Angular Material, and Bootstrap.
- Integrated APIs for content management and authentication workflows.
- Wrote unit and integration tests using Karma, Jasmine, and Cypress.
- Coordinated with backend developers, designers, and DevOps to ensure project delivery.

Tools and technologies: React, Next.js, Angular, TypeScript, Angular Material, Bootstrap, HTML, CSS, SCSS, Karma, Jasmine, Cypress, Firebase, Figma, Trello, Git, REST APIs

Frontend Developer - Farmatodo Mar 2022 - Jul 2023 Bogotá, Colombia - team of 6 developers

- Acted as team lead for the development of Farmatodo Prime, assigning tasks, managing deliveries, and coordinating frontend efforts.
- Designed and implemented the Pillbox feature, which helps customers manage medication schedules and receive recurring reminders.
- Integrated BazaarVoice through Google Tag Manager and APIs for product reviews.
- Upgraded Angular from version 11 to 16 across the platform, one major release at a time, along with the Node.js version.
- Built reusable UI components using Angular and TypeScript, connected to the authentication, subscription management, and user data synchronization APIs.
- Wrote unit tests using Karma and Jasmine to keep key components stable on a high-traffic site.
- Worked closely with design, backend, QA, and DevOps teams under an Agile and Scrum framework. Tools and technologies: Angular, TypeScript, HTML, CSS, SCSS, Bootstrap, Karma, Jasmine, REST APIs, Git, Jenkins, Jira, Google Tag Manager, BazaarVoice, Figma

Frontend Developer - BlackSip Mar 2021 - Feb 2022
Bogotá, Colombia

- Worked on the Farmatodo e-commerce platform as part of the agency team, building catalog and checkout interfaces in Angular. - Farmatodo hired me directly once the agency contract ended.

Tools and technologies: Angular, TypeScript, HTML, CSS, SCSS, Git, REST APIs

Frontend Developer - Tita Media Jun 2020 - Nov 2020
Bogotá, Colombia

- Built VTEX storefronts for Colombian retail brands, including Mario Hernández, Fiotti, Agaval, and Prochampions. Tools and technologies: VTEX, JavaScript, HTML, CSS, SCSS, Git

Frontend Developer - S9 Consulting Mar 2018 - Jun 2020
Jacksonville, Florida, USA (Remote)

- Developed complex dashboards and forms using Angular and Form.io, enabling dynamic data visualization.
- Mentored junior developers and conducted code reviews within a Scrum framework, building responsive and accessible user interfaces.

Tools and technologies: Angular, AngularJS, TypeScript, JavaScript, Angular Material, Bootstrap, Firebase, Form.io, Trello, Git, REST APIs **Frontend Developer - Tsserapp** Aug 2016 - May 2018

Cabimas, Venezuela

- Built hybrid mobile and web interfaces using AngularJS, Angular, and Ionic, integrating APIs with the backend teams. - Reviewed code and focused on performance improvements and modularization of the frontend architecture.Tools and technologies: AngularJS, Angular, TypeScript, JavaScript, Sass, Ionic, Firebase, Docker, Grunt, Gulp, Trello, Git, REST APIs

EDUCATION

Higher University Technician in Computer Science (Técnico Superior Universitario en Informática) Instituto Universitario de Tecnología Alonso Gamero - Falcón, Venezuela
